Wire, Research and Markets Corporation, Batimat 2018, Barcelonès, France, 17-20 April 2018

The background image shows an aerial view of a large construction site. In the center, two workers wearing white hard hats and yellow vests are standing on a metal roof, looking at a tablet device. To the right of the workers, several large black solar panels are installed on the building's facade. On the left, there are more solar panels and some white industrial structures. The building has a light-colored, textured exterior. The overall scene suggests a modern, sustainable construction project.
